Corrections for Murach’s jQuery

These are the corrections for the significant errors in each printing of this book. In addition to the corrections listed here, you may find some trivial typos and formatting errors. All types of corrections will be made in the next printing of the book.

How to tell which printing your book is in

Below the copyright notation on the back of the title page (page iv), you’ll find a series of numbers like this:

10 9 8 7 6 5 4 3 2 1

The number on the right of this sequence tells which printing your book is. In this example, it’s the first printing (August 2015).
Corrections to the first printing

Chapter 12, page 405

The string that’s assigned to the url variable in the second coding example isn’t continued properly. It should be continued like this:

```javascript
var url =
"http://api.flickr.com/services/feeds/photos_public.gne?" +
"id=82407828@N07&format=json&jsonp=jsoncallback=?&tags=veeacorp";
```

The string that’s coded as the first parameter of the replace method in this example is also continued improperly. It should be coded like this:

```javascript
html = html.replace(
"<p><a href="http://www.flickr.com/people/"
"82407828@N07/">zakruvalcaba</a>" +
"posted a photo:<\p>", "");
```
